

So far you might be in debt worth

B.D 8,500 !

Let's demonstrate how to avoid that in 90 seconds

Flip the page ↓

By the way, if your services are at 0% VAT it doesn't mean you are not a taxable entity!

Failing to register with the NBR fine	= B.D 500
Filing a delayed VAT return fine	= B.D 7500
Both fines together	= B.D 8500

What is 0% today might change in future

Is it worth it?

If you add the VAT module to Invent EMR you can issue the required reports in 90 seconds only! You will need these once every 3 months

Neglecting this feature may cost you

B.D 7,500

Every 3 months!

Save your cash & request the VAT module today!

Think you are saving money by calculating VAT manually?

Let's get to the bottom of this!

Flip the page ↓

You need about 6 minutes to input the VAT details for every patient.

If your clinic is visited by 40 patients per day, you will spend 4 hours daily to complete VAT disclosure & reports requirements

You would "certainly" need to employ someone just to prepare reports & calculate VAT

Average working hours for employees	= 8 Hours
Min. salary payable to an employee	= B.D 250
Annual salary	= B.D 3,000

Is it worth it?

Adding VAT module would cost you less than

37%

of the total annual salary of a staff member. Plus, it is a one time payment!

Save youe cash & request the VAT module today!
